PROFILE

I'm a Software Engineer specialized in the .NET stack (C#) and React. I have development experience of more than 4 years in ASP .NET / .NET Core, Restful API, SQL Server, JavaScript / jQuery, MVC, React and web services. To work in learning and challenging environment, utilizing my skills and knowledge to be the best of my abilities and contribute positively to my personal growth as well as the growth of the organization.

WORK EXPERIENCE

Triaxo Solutions

2022 - PRESENT

Asp .Net Core Developer

- As part of my role, I have been responsible for designing and implementing robust and scalable web applications using .NET Core MVC.
- I have also developing multiple RESTful APIs projects using .NET Core Web API.
- I also continue my learning journey with React.js. In my learning process, I have delved into the core concepts of React.js, such as components, state management, and virtual DOM.

Siriz Apps

2021 - 2022

Asp .Net Developer

- Working on a project called Mosino One a secure cloud-based solution that provides seamless and high-quality customer experiences and property management tools.
- Through my contributions, I successfully add new functionalities and optimized existing one's.

Digicare

2021

Asp .Net Intern

- During my internship as an ASP.NET MVC developer, I had the opportunity to gain valuable hands-on experience in web application development.
- Monitor and maintain brand consistency across all marketing channels and materials.
